

PSI is a leading full-service CRO operating globally.

98% of PSI-managed clinical trials complete patient enrollment on or ahead of schedule.

PSI's exceptional repeat and referral business rate distinguishes PSI in the market place as a "no-nonsense" CRO that delivers across trials of all sizes and levels of complexity.

PSI has successfully performed Phase II/III studies in the following gastroenterological indications:

- Crohn's Disease
- Ulcerative Colitis
- Peptic Ulcer
- GERD
- Non-alcoholic Steatohepatitis
- Gastric Cancer
- Esophageal Cancer
- Colorectal Cancer
- Pancreatic Cancer

PSI employs physicians as full-time monitors and project managers, most of whom are board certified specialists, including gastroenterologists.

**ULTRA-FAST PATIENT ENROLLMENT.
IT'S ABOUT TIME.**
