

PSI is a leading full-service CRO operating globally.

98% of PSI-managed clinical trials complete patient enrollment on or ahead of schedule.

PSI's exceptional repeat and referral business rate distinguishes PSI in the market place as a "no-nonsense" CRO that delivers across trials of all sizes and levels of complexity.

PSI has successfully performed Phase II/III studies in the following hematology disease indications:

- 
- Chronic Lymphocytic Leukemia
 - Acute Myeloid Leukemia
 - Secondary AML
 - Multiple Myeloma
 - Myelodysplastic Syndrome
 - Idiopathic Thrombocytopenic Purpura
 - Thrombocythemia
 - Non-Hodgkin's Lymphoma
 - Hodgkin's Lymphoma
 - Hemophilia A
 - Hemophilia B

PSI employs physicians as full-time monitors and project managers, most of whom are board certified specialists, including hematologists.

**ULTRA-FAST PATIENT ENROLLMENT.
IT'S ABOUT TIME.**
