

PSI is a leading full-service CRO operating globally.

98% of PSI-managed clinical trials complete patient enrollment on or ahead of schedule.

PSI's exceptional repeat and referral business rate distinguishes PSI in the market place as a "no-nonsense" CRO that delivers across trials of all sizes and levels of complexity.

PSI has successfully performed Phase II/III studies in the following urology and nephrology indications:

- Benign prostatic hyperplasia
- Bladder malignancies
- Chronic kidney disease
- Chronic prostatitis
- Diabetic nephropathy
- Prostate cancer
- Pyelonephritis
- Renal anemia
- Renal carcinoma
- Renal insufficiency/failure
 - Hemodialysis
 - Peritoneal dialysis
- Urinary incontinence/Overactive bladder
- UTI (cystitis, urethritis)

PSI employs physicians as full-time monitors and project managers, most of whom are board certified specialists, including internists, medical oncologists, gynecologists, urologists, and dialysis specialists.

**ULTRA-FAST PATIENT ENROLLMENT.
IT'S ABOUT TIME.**
